

MICHIGAN'S TRAUMA SYSTEM

Eileen Worden
Medical Control Authority Conference
Shanty Creek
September 29, 2014

Update

- 8 Regional Trauma Networks organized, meeting regularly.
- Formal Recognition letter signed by Director Haveman.
- Regional Coordinators meeting with partners.
- Regional Reports.

Trauma website launched

www.michigan.gov/traumasystem

Designation

MDCH is accepting applications from American College of Surgeons Level I, Level II or Level III **verified facilities** for Designation.

Level III* and Level IV* hospitals who are wish to be verified by an in-state process will send in a request for in-state review once their trauma programs are fully operational and meet requirements.

*Materials for Level III and Level IV in-state verification are being finalized.

Michigan Criteria

- Data collection-12 months of data submitted into the state trauma registry.
- Participation in performance improvement (regional and facility).
- Participation in injury prevention (regional).
- ACS verified Level I and Level II provide assistance in verification process for in-state verified Level III and IV facilities.

Designation Process

- Initial roll out starting with American College of Surgeons-COT verified facilities.
- Applications submitted to Designation Coordinator Tammy First at:
traumdesignationscoordinator@michigan.gov
- Completed applications are discussed at Designation Committee meeting.
- Designation Committee makes recommendations to the Department.
- Department either: designates a facility as a trauma facility, designates provisionally for a limited time frame- ACS noted some deficiencies, or a facility is not designated.

Provisional

- Trauma facilities need data.
- System roll out will require ongoing regional discussion as facilities come on board.
- Not permanent.
- Inaugural
